

EX-R Series

Bench DC Power Supply - mixed-mode regulation with analogue controls. Single, dual or triple outputs, 175 to 420 watts

Click main image for larger view

- Single outputs, 35V/5A, 18V/10A, 42V/10A, 20V/20A
- Dual or triple outputs, 35V/4A
- Independent digital voltage and current meters for each output with 4 digit resolution
- Switchable local or remote sensing
- Constant voltage or constant current operation
- Variable 1.5 - 5.0V auxiliary output at 5A (EX354RT)
- Compact design uses less bench space
- Silent fan-free cooling (not EX202R/EX4210R)
- DC output switches, automatic mode indication
- RS232 or USB controlled models available (35V/5A single)
- Multi-mode dual model 2x(75V/2A) or 75V/4A or 150V/2A
