Imprimir descripción general del producto

Parker's Series 450 Nexva EVA Clear General Service Hose provides versatile medium pressure service across multiple chemical-handling applications. The clear, smooth tube allows unimpeded flow and easy and quick observation of the transfer process. The tubing is resistant to abrasion and weathering for maximum performance.

## Markets:

- Agriculture
- General Industrial
- Lawn & Garden

## Features/Benefits:

- Tube: Clear EVA for sanitary processing to 140°F.
- Reinforcement: Multiple textile plies for strength and durability.
- Cover: Clear PVC for easy visual observation, and abrasion and weathering resistance.

## Applications:

- media
- Abrasives
- Anhydrous ammonia
- Herbicides
- Insecticides
- Mild chemicals
- Water
- usage
- Drain lines
- Ammonia applicators
- Seeders
- Laboratories

## Industry Standards:

- RoHS

## Safety/Technical:

- Does not meet ARPM IP-14.
- Do not use for high pressure anhydrous ammonia delivery/transfer service.

## Warnings:

- Working pressures are at +68°F (+20°C). Higher temperatures reduce the available working pressure.
- Couplings attached with bands or clamps may reduce the working pressure of the hose assembly to less than the maximum rated working pressure of the hose. Refer to NAHAD Industrial Hose Assembly Guidelines.
