Hello Isabel

There I finally came to see the box this Saturday pm.

The EDH, a few comments;

I see there is no collaboration letter establishing the use of the contents for a non commercial activity nor value and the collaboration between your institute and CERN, highly recommended, Kirsti.

The EDH is for "permanent" shipping implying that CERN has made a donation ? I have never made out such. Is there a justification , from the DG etc ?

Line 1 is expensive for "flat fiber glass".

Line 7 this is for the copper foil (0.035mm ?) and the 6mm tube ? it is not explicit. Anything else ? see line 17.

Line 11 I guess tubes of adhesive ?

Line 12 Are these the new FEBs ? These are high tech FPGAs AND I have not checked this in the OCB for SECO ! Can we put a date on this fabrication origine ?

It must date from early 2000s. I understand they are rejects due to minor strip failures.

Line 17 Rolls of 0.035mm of copper tape. Copper means value so if it clear it is very thin then the value must be low !

I did not see the Lemo cables nor the BNC&Lemo Connectos (x100)

And the box;

The box requires a top ! I did not see one.

I see that the box is truly full with expanded polystyrene "chips" which is good for protection. See photos.

This did not allow me to see the contents. Does anybody have some photos of the box as it developed over the weeks please ?

Please take my comment on line 12 seriously , I hope you understand what I mean if you read what it says in the Seco Certificate I signed.

All looks great for Mexico.

Best

Ian

Hello Isabel

sure let mw have quick look inside and at the EDH and then I send you the seco doc.

This pm

Ian

Subject: SECO authorization for the box to be sent to Mexico

Dear Ian,

As you know, we have been preparing a box to be sent to Mexico soon. Mehar, Fernando, and Carolina are about to close the box(attached picture). So, we would like your help with the SECO authorization and any help you could give us with the pickup.

The corresponding EDH for the box
is: <https://edh.cern.ch/Document/SupplyChain/SHIP/10508301>

Please let us know whether we need an extra check for approval. I will ask for shipment quotations as soon as the box is closed.

Thank you for your time and help,
Isabel
